## MAP LIBRARY DIVISION

The mission of the Map Library Division is to provide an up-to-date map reference service and to coordinate foreign map procurement from domestic and foreign sources in behalf of the mapping community of the government. While three functions are listed below, they are intimately interrelated and interdependent, and cannot be separated out for listing in priority order. Just as procurement requires guidance from existing collections and consumer requests, so the end product of the library services is ineffective without a strong, current procurement program.

Authority: RI-130, para.

Date of Establishment: CIA-State agreement of 1947.

Funds:

Many years: 49.5

1. Coordinate, direct, and support the joint-agency foreign map procurement program through the Department of State; coordinate mapping agency requirements for collection of foreign maps by

25X1X1

and develop information on
